I wish every mended on motion of Mr. Craighead, and man, woman and child in the world, who are afflicted as I have been afflicted, who have suffered as I have suffered, may read this letter and thus find where they can be cured. The Amazgamation of Languages.—There is a grow ing tendency in this age to appropriate the most expressive words of other languages, and after a while to incorporate them into our own; thus the word Cophalic, which is from the Greek, signifying "for the head," is now becoming popularized in connection with Mr. Spalding's great Headache remedy, but it will soon be used in a more general way, and the word Cephalic will become as common as Electrotype and many others whose distinction as foreign words has been worn away oy: ommon usage until they seem "native and to the manor born."

'ardly Realized.

Hi 'ad 'n 'orrible 'eadache this hafternoon, handl stepped into the hapothecaries hand says hi to the man "Can you hease me of an 'eadache?" "Does it hach 'ard," says 'e. HEADACHE is the favorite sign by which natur

makes known any deviation whatever from the natural state of the brain, and viewed in this light it may be looked on as a safeguard intended to give notice of disease which might otherwise escape attention, till too late to be remedied; and its indications should never be neglected. Headaches may be classified under two names, viz: Symtomatic and Idiopathic. Symptomatic Headache is exceedingly common and is the precursor of a great variety of diseases, among which are Apoplexy, Gout, Rheumatism and all febrile diseases. In its nervous form it is sympathetic of disease of the stomach, constituting nick headache, of hepatic disease constituting bilious headache, of worms, constipation and other disorders of the bowels, as well as renal and uterine affections. Diseases of the heart are very frequently attended with Headaches; Ansemia and plethora are also affections which frequently occasion headache. Idiopathic Headache is also very common, being usually distinguished by the name of nervous heanache, sometimes coming on suddenly in a state of apparently sound health, and prostrating at once the mental and physical energies, and in other instances it comes on slowly, heralded by depression of spirits or acerbity of temper. In most instances the pain is in the front of the head, over one or both eyes, and sometimes provoking vomiting; under this class may also be named Neuralgia.

For the treatment of either class of Headache the Cephalic Pilis have been found a sure and safe remedy, relieving the most acute pains in a few minutes, and by its subtle power eradicating the diseases of which Headache is the uncering index.

Bemour.—Missus wants you to send her a box of Cephalic Glue, no, a bottle of Prepared Pills,—but I'm thinking that's not just it naither; but perhaps ye'll be afther knowing what it is. Ye see she's nigh dead and gone with the Sick Headache, and wants some more of that same as relaived her before.

Druggist.—You must mean Spalding's Cephalic Pills.

Bridget.—Och! sure now and you've sed it here's the quarther and giv me the Pills and don't be all day about it aither.

Constipation or Costiveness.

No one of the "many ills flesh is heir to" is so pre valent, so little understood, and so much neglected Costiveness Often originating in carelessness, sedentary habits; it is regarded as a slight disord sedentary habits; it is regarded as a slight disorder of too little consequence to excite anxiety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseases, and unless early eradicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant, are Headache, Colic, Rheumatism, Foul Breath, Piles and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Abcesses, Dysentary, Diarrhosa, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondrasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symperadicated it will bring the sufferer to an untimely grave. Among the lighter evils of which costiveness is the usual attendant, are Headache, Colic, Rheumatism, Foul Breath, Piles and others of like nature, while a long train of frightful diseases such as Malignant Fevers, Abcesses, Dysentary, Diarrhosa, Dyspepsia, Apoplexy, Epilepsy, Paralysis, Hysteria, Hypochondrasis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrequently the diseases named originate made several cures of paipitation of the heart and general cures of paipitation of the policy. in Constipation, but take on an independent existence unless the cause is eradicated in an early stage. From all these considerations it follows that the disorder should riceive immediate attention whenever it oc-curs, and no person should neglect to get a box of Ce-phalic Pills on the first appearance of the complaint, as their timely **see** will expel the insiduous approaches of disease and destroy this dangerous foe to human life.

A Real Blessing.

Physician.—Well, Mrs. Jones, how is that headache?
Mrs. Jones.—Gone! Doctor, all gone! the pill you sent cored me in just twenty minutes, and I wish you would send me more, so that I can have them handy.
Physician.—You can get them at any Druggists.
Call for Cephalic Pills, I find they never fall, and I recommend them in all cases of Headache.
Mrs. Jones.—I shall send for a box directly, and shall tell all my suffering friends, for they are a real blessing.

has sold two millions of bottles of his celebrated Pre pared Glue, and it is estimated that each bottle save making an aggregate of twenty millions of dollars re-claimed from total loss by this valuable invention. Having made his glue a household word, he now pro-poses to do the world still greater service by curing all the aching heads with his Cephalic Pills, and if they are as good as its Glue, Headaches will soon vanish away like snow in July.

Over Excitement, and the mental care and anx-ety incident to close attention to business or study, are among the numerous causes of Nervous Headache. The disordered state of mind and body incident to this The disordered state of mind and body incident to this distressing complaint is a fatal blow to all energy and ambition. Sufferers by this disorder can always obtain speedy relief from these distressing attacks by using one of the Cephalic Pills whenever the symptoms appear. It quiets the overtasked brain, and soothes the strained and jarring nerves, and relaxes the tension of the stomach which always accompanies and aggravates the disordered condition of the brain.

GREAT DISCOVERY.—Among the most important of all the great medical discoveries of this age may be considered the system of vaccination for protection from Small Pox, the Cephalic Pill for relief of Headache, and the use of Quinine for the prevention of Fevers, either of which is a sure specific, whose benefits will be experienced by suffering humanity long after their discoverers are forgotten.

To you ever have the Sick Headache? Do you remember the throbbing temples, the fevered brow the loathing and disgust at the sight of food. How totally unfit you were for pleasure, conversation of study. One of the Cephalic Pills would have delivered you from all the suffering which you then experienced. For this and other purposes you should always have a box of them on hand to use as occasion requires.
